

MEN'S FABRIC

VERTEX COLLECTION

MicroSensor® Fabric (Vertex Jersey, Vertex Sleeveless Jersey, Vertex MicroSensor® Bib Short, Vertex MicroSensor® Short)

- Offers a 15 -20% faster moisture transfer rate than UltraSensor®, while remaining extremely soft and comfortable.

MicroSensor® Fabric-Nano (Vertex Versa Jersey)

- Unique Nano technology forces moisture to the outside of the garment for quick evaporation. Provides SPF UV protection, is anti-static and anti-odor.

MicroSensor® Fabric-Mesh (Vertex MicroSensor® Bib Short)

- MicroSensor® fabric in a wider weave in order to increase ventilation while maintaining all of its moisture transfer properties.

Direct-Vent (Vertex Jersey, Vertex Sleeveless Jersey)

- Provides increased ventilation in the areas where it is most needed.

DuraSensor (Vertex Versa Short)

- Quick-drying, lightweight and durable stretch woven fabric.

Optik (Optik Jacket, Optik Vest)

- Optik fabric weighs just 36 grams per square meter, yet its magical blend of packability, water and wind resistance, and breathability makes it ideal for aerobic actives with unexpected weather.

Optik-WxB (Octane Jacket)

- Integrates 4-way stretch with fully waterproof, windproof, breathable capabilities to deliver high function protection during foul weather aerobic activities.

4790 OPTIK JACKET

QUEST COLLECTION

MicroSensor® Fabric-Mesh (Quest Bib Short)

- MicroSensor® fabric in a wider weave in order to increase ventilation while maintaining all of its moisture transfer properties.

Sensor (Quest Bib Short, Quest Short, Pearl Originals Jersey, Pearl Original Relaxed Jersey, Junior Pearl Original Jersey, Junior Quest Short)

- Sensor fabric sets the standard for performance wicking fabrics featuring quick-drying hydrophobic yarns designed to stay dry and comfortable

UltraSensor® Fabric (Quest Jersey)

- World class moisture-transfer construction utilizes one-way capillary action which lasts for the life of the garment.

UltraSensor® Fabric-Mesh (Quest Jersey)

- UltraSensor® fabric in a wider weave in order to increase ventilation while maintaining all of its moisture transfer properties

DuraSensor-Light (Quest Versa Short)

- Quick-drying, lightweight and durable stretch woven fabric.

0657 QUEST JERSEY

SLICE COLLECTION

UltraSensor® Fabric (Slice Jersey, Slice Sleeveless Jersey, Slice Versa Jersey, Focus Jersey, Slice UltraSensor® Bib Short, Slice UltraSensor® Short)

- World class moisture-transfer construction utilizes one-way capillary action which lasts for the life of the garment.

DuraSensor (Slice Versa Short)

- Quick-drying, lightweight and durable stretch woven fabric.

Direct-Vent (Focus Jersey)

- Provides increased ventilation in the areas where it is most needed.

UltraSensor® Fabric-Mesh (Comfort Liner Short)

- UltraSensor® fabric in a wider weave in order to increase ventilation while maintaining all of its moisture transfer properties.

MicroSensor® Fabric-Mesh (Slice UltraSensor® Bib Short)

- MicroSensor® fabric in a wider weave in order to increase ventilation while maintaining all of its moisture transfer properties.

Zephr® (Vagabond II Jacket)

- Offers a no-compromise blend of water resistance, wind resistance, breathability, and packability for a wide variety of aerobic activities and weather conditions.

6504 VAGABOND II JACKET

ATTACK COLLECTION

Sensor (Attack Jersey, Attack Sleeveless Jersey, Attack Bib Short, Attack Short, Attack Knicker, Attack Versa Short)

- Sensor fabric sets the standard for performance wicking fabrics featuring quick-drying hydrophobic yarns designed to stay dry and comfortable

UltraSensor® Fabric (Attack Long Sleeve Jersey)

- World class moisture-transfer construction utilizes one-way capillary action which lasts for the life of the garment.

Sensor-Mesh (Boxer Brief Liner Short)

- Sensor fabric in a wider weave in order to increase ventilation while still maintaining its performance wicking properties.

MicroSensor® Fabric-Mesh (Attack Bib Short, Attack Knicker)

- MicroSensor® fabric in a wider weave in order to increase ventilation while maintaining all of its moisture transfer properties.

Zephr® (Zephr® Jacket, Zephr® Vest)

- Offers a no-compromise blend of water resistance, wind resistance, breathability, and packability for a wide variety of aerobic activities and weather conditions.

0221 ATTACK KNICKER
